8 1/4" 210 mm	Wall Plate	2 7/8 <u>"</u> 73 mm
s <sup>+</sup> - + <sub>s</sub>	4 3/4" 121 mm	S

TYPE

#### **SPECIFICATIONS**

INSTALLATION

Soap Tank: Fabricated of #20 ga stainless steel, #4 satin finish, fully welded one-piece construction.

Refill Indicator

**Valve:** All purpose antibacterial soap valve cylinder, black molded plastic push style valve that takes less than 5 lbs of force and one hand to operate complies with barrier free guidelines when mounted at proper height.

Viewer: Clear plastic window allows a constant fluid level check.

Concealed Mounting Plate: Fabricated of heavy gauge stainless steel. Filler Cap: Fabricated of stainless steel, hinged to allow easy servicing,

secured with special key that creates a vandal resistant dispenser. **Overall Size:** 8 1/4"W x 4 3/4"H x 3 3/4"D

210mm x 121mm x 95mm (Horizontal Mounting)

Capacity: 40 oz.

Recommend type soaps without chloric solutions for proper operation.

Provide an area on mounting surface at desired or specified location. Secure concealed mounting plate to wall surface with proper fasteners. Slide dispenser down over mounting plate and secure by means of set screw located inside tank. Fill unit with proper soap. Close lid and secure with special key. Test valve for proper operation.

\*It is not recommended to mount any soap dispenser on mirrors

21mm

\*\*For best performance, use pre-mixed low concentrate solutions. Dispensers should have periodic maintenance performed to insure the life dispenser. Rinse out globe and valve with warm water to avoid sludge buildup.

Preventative Maintenance: Each dispenser should be flushed out aprx, Every 30 days with warm water to prevent valve from; clogging with old soap, Abrasive cleaners should not be used when wiping down dispenser.

Revision 03/11

MOUNTING	HANDING	TYPE	SIZE	OTHER

#### **SPECIFICATIONS**

**Cabinet:** #22 ga. stainless steel with #4 satin finish. Striker tabs prevents damage to mounting surface when cover is closed. (Unibody design)

Cabinet Back: #22 ga stainless steel with embossed towel guides.

**Hinges:** Full length, heavy duty, stainless steel , piano type hinge. (Welded, no rivets)

Locks: Pin tumbler, commercial quality, keyed like all other AJW cabinets.

Towel Dispenser: Area is hemmed to prevent towel tearing and injury.

Overall Size: 11"W x 14 1/2"H x 4"D (stainless steel)

279mm x 368mm x 102mm

Capacity: 400 c-fold or 525 multifold

Options:

-TK: Twist lock in lieu of keyed lock.

# INSTALLATION

Provide an area on mounting surface at desired or specified location. Open cover and place unit against wall and transfer mounting points after checks out to be level and is at the proper mounting height. Secure unit to surface with proper fasteners, fill cabinet with towels, close cover and remove key.

Recommend towel dispensing area at a height of 40" above finished floor to meet ADA Code.

Angle Frame Mirror

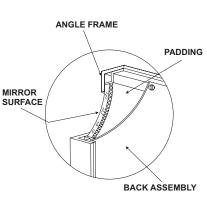

JOB #:	
ITEM #:	
QUANTITY:	

Revision 11/15

MOUNTING	HANDING	TYPE	SIZE	OTHER

#### **SPECIFICATIONS**

Frame: Fabricated of #18 ga stainless steel, #4 satin finish. 3/4" x 3/4" frame with welded mitered corners are ground and polished smooth. #22 ga concealed "Z" channel is spot welded to inner perimeter of frame for reinforcement and greater rigidity.

Mirror: 1/4" thick type 1 transparent flat type, class 1 - clear glass mirrors. Mirror is coated with silver and sealed with a uniform electrolytic copper plating, along with two coats of paint for added protection. Mirrors are guaranteed against silver spoilage for a period of 15 years. Mirrors conform to ASTM C1036 and ASTM C1503-R8.

Filler: 3/16" thick full size, shock absorbing, water resistant, non-abrasive polyethylene padding protects all concealed mirror surfaces.

Back: #20 ga pre-plated galvanized steel, with embossed horizontal louver mounting brackets. Embossed theft resistant pressure activated clip lock device, locks mirror in place to wall hangers. Back is secured to frame with concealed Phillips head screws

Hangers: Fabricated of #20 ga pre-plated steel galvanized steel with mounting points.

Standard Sizes Available (W x H): 16"x24", 16"x20", 16"x30", 18"x24" 18"x30", 18"x36", 20"x60", 24"x30" 24"x36", 24"x42", 24"x48", 18"x60", 24"x60", 24"x72", 18"x72"

#### Options:

LG: Laminated Glass LX: Polycarbonate PM: Plastic Acrylic T: Tempered Glass

VC: Vinyl Clad (Safety Glass) 8B: #8 Reflective Stainless Steel

\* Stainless steel mirrors reflect images in different optic quality than plate glass. There will be a slight distortion which increases proportionately with the mirror size. Therefore, AJW Architectural Products ™cannot be held responsible for quality of image.

\* Mirrors are always ordered Width x Height

\*\*\* Recommended max size for 8B mirrors: 72" x 47-1/2"

\*\*\*\* Framed mirrors are fabricated to a tolerance of (+/-) 1/8"

\*\*\*\*\* Mirrors conform to Federal Specifications DD-M-00411b & DDg- 541D.

#### **INSTALLATION**

Coordinate installation with architect / contractor for specific mounting location and height for each mirror application. Making sure "I" bracket is level, transfer all mounting point locations to wall surface from drawing. Secure brackets with proper fasteners for each application. Slide mirror down over horizontal brackets until clip lock secures mirror in place. Mirror can only be removed by inserting tool through hole at bottom of frame depressing clip. This will allow mirror to slide up over brackets. Fillers are available if mirrors are mounted above and below tile line. (U004 Filler) filler material will match mirror frame to form a one piece construction.

To meet ADA Code, bottom edge of reflective surface can be no higher than 40" above finished floor. (4.19.6) Full length mirrors may be used for universal application when installed in correct locations.

Abrasive cleaners & chloric solutions should not be used on mirrors. Discoloring and /or scratching of frame and reflective surface may

MOUNTING HANDING TYPE SIZE OTHER

### SPECIFICATIONS INSTALLATION

**Exposed Cover:** Fabricated of #22 gauge stainless steel with a #4 satin finish. Cover has two (2) exposed mounting points.

**Shower Rod:** Fabricated of 18 gauge stainless steel with a #4 satin finish. **UX1:** 1" outside diameter

Provide an area on wall surface at desired or specified location. Hold flange to wall surface and transfer mounting points. Drill pilot holes. Place flanges on the ends of the rods. Secure flanges to wall surface with proper fasteners per application.

MOUNTING	HANDING	TYPE	SIZE	OTHER

#### INSTALLATION **SPECIFICATIONS**

Bacteria & Mildew Resistant: Heavy duty vinyl film (8 mil) that is flame retardant, durable and waterproof. Microbiotic KV-33 is an integral part added to the fabrication of this curtain that can be laundered repeatedly without losing this barrier against bacteria, fungus and mildew. KV-33 is a durable bacteriostat, mildewstat and fungistat that will provide protection for as long as you use this style curtain. It will retard the growth of organisms, thereby inhibiting odors caused by decaying bacteria.

Design: To insure the ultimate in bacteria free curtain, there are no side hems to hinder the flow-off of soap and water. This also makes cleaning easier. The heading is reinforced with a ten gauge vinyl film with rust proof anodized eyelets spaced 6" apart.

Cleaning: Sponge with warm mild soap and rinse with clear water.

Machine washing: Relatively cool water temp not to exceed 120 degrees F. DO NOT USE DETERGENTS. Air dry at low temp. Colors: Standard stock color is white. Special order for other colors are available on request.

\*UX1-V/UX2-V: Overhead s/s supports for oversized shower rods. (For shower rods over 72" in length an overhead support is recommended)

UX1-V: 1" OD shower rods. **UX2-V:** 1 1/4" OD shower rods. Recommended: UX169 stainless steel shower curtain hooks to connect to AJW shower curtain rods. Various types of flanges are available to secure rod and curtain to mounting surface (exposed and concealed).

Measuring Curtains: Curtains are measured W x H. The same curtain will fit a 1 or 1 1/4" diameter rod.
