### INSTALLATION

Coordinate installation with architect and contractor to avoid interference with pipes vents etc. in wall. Provide a rough wall opening 12 3/4"W x 24 1/2"H. See specification for proper wall depth opening. Open cabinet and insert into wall opening. Secure with proper fasteners per each application. Fill unit with recommended towels, without overfilling. Make sure towels overlap each other so they will be available each time a towel is removed from dispensing area.

Do not use abrasive or chloric solutions when cleaning cabinet.
