MARKERBOARDS

AJW porcelain on steel writing surfaces provide the ideal communication platform to share your ideas, debate your plan, and review your results. AJW Markerboards are fabricated using a three-ply construction process, including a porcelain enamel writing surface with a lifetime warranty. Your AJW Markerboard can be designed with a number of trim, tray and maprail options.

SPECIFICATIONS

Balanced, high pressure laminated, porcelain enamel markerboards of three-ply construction consisting of face sheet, core material, and backing.

- Magnetic for use with dry erase markers
- 1/2" Core with aluminum backing sheet
- Excellent writing and erasing performance
- Lifetime warranty on porcelain enamel writing surface

AJW's porcelain enameled surface conforms to the standards set forth by the Porcelain Enamel Institute (PEI), and is backed by a lifetime warranty. The face sheet is comprised of enameling grade steel specially processed for temperatures used in coating porcelain on steel. Exposed face and edges are coated with a 3-coat process consisting of primer, ground coat, and color cover coat. Concealed face is coated with a 2-coat process consisting of primer and ground coat. Cover and ground coats are fused to steel at firing temperatures of approximately 1475°.

SOAP DISPENSERS

AJW soap dispensers come in a variety of designs, soap capacities and finishes. To adhere to ADA guidelines, designated manual soap dispensers can be operated with one hand and less than 5 lbs of force or less. We also offer hands-free, battery operated automatic dispensers.

REPLACEMENT VALVES

We offer replacement valves for our soap dispensers. Refer to the chart below.

VALVE	SOAP DISPENSER
U001U-TAP	U1304, U1314
U001-P25	U120, U122, U124, U126, U125

CARE & CLEANING

All soap tanks, valves, and globes must be cleaned periodically to avoid sludge and soap build up. This is important since the majority of operational issues for soap dispensers are due to improper maintenance and lack of cleaning. While cleaning, do not remove or take valves apart as this creates problems with the seals and may cause a bypass leak.

Flush valves with warm water. If the water does flow through the valve after cleaning, repeat the procedure.

Make sure you are using the correct soap in your dispensers. The proper viscosity is imperative for trouble free operations.

MIRRORS & SHELVES

▶ AJW mirrors are available in a variety of sizes and mirror surfaces. Contact your Customer Relationship Manager for more information. Shelves can be fabricated to meet many custom requirements for length or depth.

▶ WARRANTY

We guarantee our mirrors against silver spoilage for a period of fifteen years under normal use. All mirrors are silver coated and sealed with an electrolytic copper plating. This guarantee includes all 1/4" plate glass mirrors including tempered, laminated, and all other safety glass mirrors.

▶ MIRROR IMAGES

Plate glass and vinyl clad plate glass mirrors provide the best reflective quality. Other reflective surfaces, such as stainless steel, tempered glass, laminated glass, plastic acrylic, and polycarbonate have a slight distortion which increase proportionately with mirror size.

Measurement Guide

Wall Clearance:

This is commonly known as bar offset. All AJW bars have 1 1/2" clearance between the mounting surface and inside of the bar with the exception of wall to floor bars. (Complies with Federal specification WW-p-541/8b)
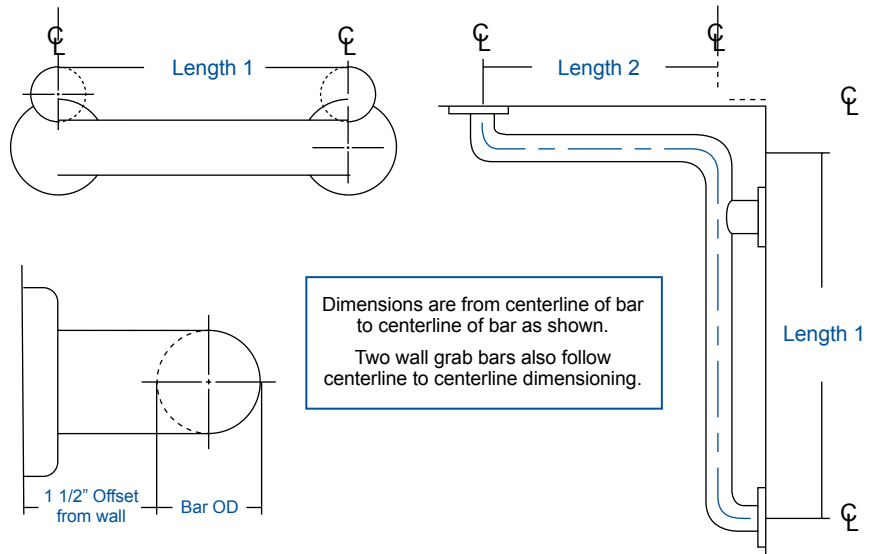

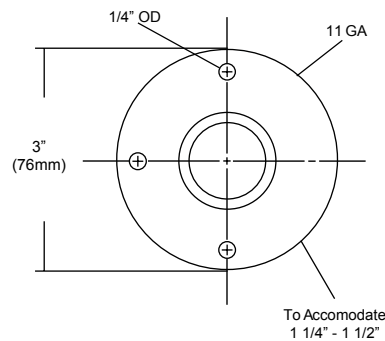

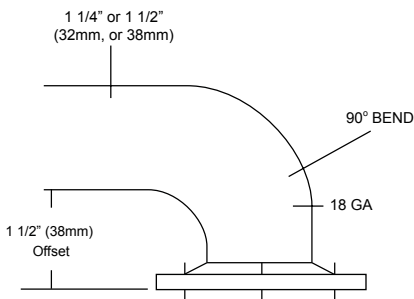

Sizing Bars:

All stainless steel grab bars are measured centerline to centerline. Three sided bars (ex: Configuration-V) must have finished wall sizes supplied when pricing and ordering bars.

HEALTHCARE ACCESSORIES

▷ AJW healthcare products include shower seats, changing tables, and other products intended for use in healthcare facilities. When mounted properly these products comply with ADA guidelines.

▷ ADA GUIDELINES

4.21.3 – Shower Seats:
Seating area of shower seat should be at a height between 17" – 19" above the finished floor.

4.20.3, 4.26.3 – Tub Seats:
Seats should be mounted to the wall surface securely and will not slip during regular use.

▷ SHOWER SEATS

We offer shower seats with a variety of mounting styles and materials to meet any application or requirement. All shower seats should be secured with in-wall concealed mounting whenever possible.

▷ BABY CHANGING STATIONS

Changing stations are available in various configurations, mounting styles, materials and colors to meet all applications.

▷ SEAT MATERIALS

Cushion Material:
2 1/2" foam cushion covered with water resistant reinforced vinyl fabric.

Seating Area Material:
3/4" high density polyethylene (HDPE).

Frame Material:
18 gauge satin finish stainless steel.

▷ Shower seats that mount with stainless steel "hat" style brackets are not intended for application that include shower bases with rounded corners. AJW recommends the U928 for such applications.

HOSPITALITY ACCESSORIES

Hospitality accessories are fabricated with design and aesthetic in mind. See below for an overview of each series.

UB Accessories: Fabricated of a sold brass casting with a chrome, nickel plated finish.

UC Accessories: Fabricated of a high polished chrome plating over virgin zinc cast (Zamac). All accessories meet standard Federal specifications.

UX Accessories: All accessories are stainless steel with a bright or satin finish and provided with a concealed stainless steel mounting plate. When specifying the finish use suffix -BF for a bright or -SF for a satin finish.
